

PRODUCT DATA SHEET

WEATHER SKIN DETAIL & REPAIR LIQUID

Single component, thixotropic hand applied liquid waterproofing membrane

Description

- Part of the WEATHER SKIN range of waterproofing products
- WEATHER SKIN DETAIL & REPAIR LIQUID is a high performance flexible system used for long lasting waterproofing applications.
- The system is hand applied and the hydrophobic chemical system has been engineered for enhanced moisture tolerance to better suit the UK climate.
- Suitable for both new and existing roofs - Perfect for repair and refurbishment of most roof coverings without having to remove the existing structure.

Advantages

- Seamless waterproofing – no joints to fail
- Easy application – just use straight from the tin
- Single component – no weighing activators
- Moisture curing – it will cure without activator using moisture from the environment
- Damp tolerant
- Easy to repair
- Frost and high temp resistance (-40C to + 90C)
- No naked flames required

Uses

Date 20/03/2026

- Optimised for use on complicated roof detailing such as flashings, upstands, pipe, gutters etc

Consumption

- Applied @ 2 – 3 kg/m²
- Note that consumption will increase with deeper surface texture

Application

All surfaces must be clean, dry and free from contaminants. Prime porous substrates such as concrete and with WEATHER SKIN PU PRIMER.

Stir well before use until the colour is uniform. Avoid excessive stirring to prevent air mixing.

Apply by roller or brush generously. Once it is firm to touch it can be overcoated with WEATHER SKIN system or further coat of WEATHER SKIN DETAIL & REPAIR LIQUID.

Packaging, storage and safety

- WEATHER SKIN DETAIL & REPAIR LIQUID is supplied in 6kg tins.
- Store indoors between 5°C and + 30°C for up to 12 months
- Refer to Safety Data Sheet (SDS).
